Dear Resident/Vehicle owner,

WINDERS ROAD, SW11 – HIGHWAY MAINTENANCE WORKS

As a part of our borough wide programme to improve roads and pavements, we will shortly be carrying out carriageway resurfacing works at the above location. The works will include removal and replacement of the existing road surface of Winders Road between Battersea Park Road and Shuttleworth Road. These works are essential to improve the safety and condition of the road, in addition to improving the appearance and character of the area.

The works are programmed to commence **on Tuesday 14th September 2021** and anticipated to be completed by **Thursday 16th September 2021**, weather and other conditions permitting. The work will be carried out between the hours of 08:00am to 5:00pm.

Please be assured that we will make every effort to complete the work as planned and keep inconvenience to an absolute minimum. The Council's contractor, FM Conway Ltd will strive as much as possible to maintain safe access to your property or business. We ask that you discuss any specific access or delivery needs with the site staff who will be able to direct you safely through the works where required.

However, at times, it is possible that works can be delayed, for example, due to unforeseen constraints, adverse weather conditions or emergency traffic incidents. If that happens, I ask for your cooperation and forbearance while we deliver these improvements.

To safely and effectively carryout these works, we will need to close the road during the works. All parking in the road will be suspended during the works and a road closure and diversion will be in operation and signed accordingly on site. Pedestrian access will always be maintained. The road will be opened as soon as possible upon completion of the work.

Please do not park in 'No Waiting' coned area as this can delay the work progress. If a vehicle is parked in the coned off area, the Council may have no alternative than to relocate the vehicle to an adjacent road. Should this need occur, full details of the relocation will be available directly from the supervising Engineer on site or via **0208 871 7665**.

If you have a question or require assistance, please direct your enquiry for the attention of Mr Naveed Aziz (Senior Engineer) to 020 8871 7665 who will be happy to help. For emergencies affecting public safety outside office hours or at weekends please contact the Wandsworth Emergency Control via 020 8871 7490.

Yours faithfully,

Afe Tesfay
Principal Engineer
